[About]

I'm a graphic designer from Taiwan, currently living in Belgium.

From my background informations below you can tell I really enjoy designing in different ways. I have provided services for many companies from different industries in past few years, dedicate to provide better design quality for my clients to help their business progressing well.

In addition to prints and websites, I especially like making stickers and cards, sometimes short animations, too. Hope my design could be a small bright spot in someone's life.

If you need any of design services I could help or you would like to know more about my works, feel free to contact me.

[Experience]

2020 Tervuren, Belgium

Freelancer

Graphic design, packaging design, illustrations

I applied the working-holiday visa to Belgium in 2020, look forward to expanding my vision in this journey. Although many plans cannot be implemented as expected due to covid-19, I think this is also part of the adventure.

Now, I work remotely as a freelance designer.

2018-2020 Taipei, Taiwan

Aquavan Technology-Visual Designer

Packaging design and banner design for online store

I moved to Taipei in 2018, working for a biotechnology company as a visual designer, my job is to design the identity of their health supplements or ODM products, banners for their E-commerce stores and modify the briefs for PM. Any visual-related project is my scope of work.

2016-2018 Taichung, Taiwan

YKQK Multimedia Marketing-Graphic Designer

Modular website design and layout

My job is design the website and turn the layout into HTML and CSS, modify photos and edit texts, includes design for prints and new logos for clients from various industries.

I have completed more than 100 projects of modular web design in this company.

The interesting part is, different industries have different preference for visual style, so I had the opportunity to try various graphic design and communicate with many people during my employment.
